Curriculum Vitae

TIMOTHY G. GREGOIRE

J. P. Weyerhaeuser Professor of Forest Management

The Forest School
School of the Environment
Yale University
360 Prospect Street
New Haven, CT 06511-2189

Telephone: (203) 432-9398

FAX: (203) 432-3809

Email: Timothy.Gregoire@Yale.edu

EDUCATION

<u>Institution</u>	<u>Degree - Field of study</u>	<u>Date</u>
Princeton University	B.S. - Engineering	1971
University of New Hampshire	M.S. - Forest Resources	1980
Yale University	M.Ph. - Forest Biometrics	1982
Yale University	Ph.D. - Forest Biometrics	1985

EXPERIENCE

9/78-5/80	University of New Hampshire, Institute of Natural and Environmental Resources. Instructor.
9/82-5/84	Southern Connecticut State University, Department of Computer Science. Instructor.
8/83-5/85	Yale University, School of Forestry and Environmental Studies. Instructor.
5/82-5/85	U. S. Forest Service, Fort Collins, Colorado. Statistical consultant.
5/85-8/85	U. S. Forest Service, Hamden, Connecticut. Mathematical statistician.
8/85-7/91	Virginia Polytechnic Institute and State University, School of Forestry and Wildlife Resources. Assistant professor.
7/91-6/98	Virginia Polytechnic Institute and State University, School of Forestry and Wildlife Resources. Associate professor.
7/98-present	Yale University School of Forestry and Environmental Studies./ Yale School of the Environment J. P. Weyerhaeuser Jr. Professor of Forest Management Associate Dean for Academic Affairs, 2002-2004

ADVISORY SERVICE

Current

Ministry of Agriculture and Forests, Royal Government of Bhutan, 2009-present.

Advisory Directors, World Sustainable Development Forum – North America, 2016-present

Former

Board of Directors, *The International Environmetrics Society*, 2011-2013

Deputy Editor, *Environmental and Ecological Statistics*, 2004 – 2010.

Academic Council, TERI School of Advanced Studies, New Delhi, India. 2003-2006.

Board of Directors, The Energy and Resources Institute -- North America, Washington, D.C.

2003-2016

Council of Environmental Deans and Directors, National Council for Science and the Environment, 2002-2004.

Editorial Advisory Committee (1999-2005), International Biometric Society

External Review Panel of new Vegetation Inventory, Ministry of Forests, British Columbia, Canada, January-March 1995.

Forest Inventory and Analysis Subcommittee of the Forest Research Council Committee of the American Forestry Council, 1989-1995.

Associate Editor of

Forest Science, 1989 – 1996

Biometrics, 1997 – 1999

Environmetrics, 1997 – 2013

Silva Fennica, 1999 – 2018

Environmental and Ecological Statistics, 2004 – 2018

Editorial Board of *Journal of Sustainable Forestry*, 2014 -- 2019

Editor, Springer series in *Environmental and Ecological Statistics*, 2008 – 2010.

Section Editor of *Encyclopedia of Environmetrics* (Wiley, 2001).

Co-Editor of Monograph Series in *Environmental and Ecological Statistics*, 2005 – 2012 .

Guest editor for special issue of *Environmental and Ecological Statistics* entitled “Statistical Ecology and Forest Biometry”, 2000, v.7, no.3.

Guest editor for special issue of *Computers and Electronics in Agriculture* entitled “Forest Inventory and Monitoring”, 2000, v.28, no.2.

Guest editor for special issue of *Environmental and Ecological Statistics* entitled “Special Issue on Statistical Methods and Techniques for Analyzing Spatial and Temporal-Spatial Data”, 2004, v.11, no.4.

PROFESSIONAL ORGANIZATIONS, MEMBERSHIPS and OFFICES

The International Biometric Society, member 1982-2020

Council (2000-2001, & 2008-2013)
 Search Committee for Editor of *Biometrics* (2002, 2004)
 Search Committee for Editor of *Journal of Agricultural, Biological, and Environmental Statistics* (2000-2001)
 Chair, Management Committee of *Journal of Agricultural, Biological, and Environmental Statistics* (2002-2007)
 Information Technology Working Party (2004-2006)
 Communications Committee (2007-2008)

President, Eastern North American Region (2003)
 Treasurer, Eastern North American Region (2000-2001)
 Regional Advisory Board, Eastern North American Region (1994)
 Chair, Regional Advisory Board, Eastern North American Region (1995-1998)
 Regional Committee, Eastern North American Region (1995-1998, 2000-2004)
 Chair, Web Oversight Committee (1999-2001)
 Program Committee, Eastern North American Region (1996, 2001)

American Statistical Association, member 1983-present

Publications Chair, 1997-98, Section on Statistics and the Environment
 Program Committee, Joint Statistical Meetings, 2001
 Publications Committee, 2002-2007

International Statistical Institute, 2006 –present, Elected Member

Institute of Mathematical Statistics, member 1986 - 2020

The International Environmetrics Society, 1997- 2014

The Royal Statistical Society, 1997- 2014

International Association of Survey Statisticians

American Association for the Advancement of Science, member 1995 -- 2015

International Union of Forestry Research Organizations

Subject Groups S4.01, S4.02, S4.11

Working Party S4.02.03 co-chairman, 1991-1999

Society of American Foresters, 1982-present

Inventory (A1) Working Group, chairman 1993-1994

Biometrics (A3) Working Group, secretary 1991-1992

Representative of SAF to American Statistical Association, Section on
Statistics and the Environment (1993-1999)

HONORS and AWARDS

Elected Fellow of the American Association for the Advancement of Science, 2011

Award in Forest Science, Society of American Foresters, 2000

Elected Fellow of the American Statistical Association, 2000.

Distinguished Achievement Medal, American Statistical Association, Section on
Statistics and the Environment, 1996.

Twentieth Century Distinguished Service Award for outstanding contribution to the
development and direction of cross-disciplinary combination of practicality and
scholarship for statistics, ecology, environment, and society. Ninth Lukacs
Symposium: Frontiers of Environmental and Ecological Statistics for the 21st
Century. 1999.

Certificate of Appreciation for Outstanding Service, Society of American
Foresters, 1997.

Certificate of Appreciation for Significant Contribution to Science and Technology
Transfer, Society of American Foresters, 1995.

Certificate of Appreciation, International Union of Forest Research Organizations, 1994.

President's Award for Practical Papers, First Place, American Society for
Photogrammetric Engineering and Remote Sensing, 1993.

Certificate of Appreciation for Outstanding Service, Society of American
Foresters, 1992.

RESEARCH PUBLICATIONS

Books (3)

Gregoire, T. G. and H. T. Valentine. 2008. *Sampling Strategies for Natural Resources and Environment*. Chapman-Hall/CRC (ISBN 978-1-58488-370) 492 p.

T. G. Gregoire, D. R. Brillinger, P. J. Diggle, E. Russek-Cohen, W. G. Warren, R. D. Wolfinger (eds.). 1997. *Modelling Longitudinal and Spatially Correlated Data: Methods, Applications, and Future Directions*. Springer-Verlag, New York.

Schreuder, H. T., **T. G. Gregoire**, and G. B. Wood. 1993. *Sampling Methods for Multiresource Forest Inventory*. New York: Wiley. 446 p.

Monographs (1)

Pant, P., Sharma, P., Jain, S. and Gregoire, T.G., 2010. Analysis of REDD for India: Opportunities and Challenges. VDM Verlag Dr. Mueller, Germany. (ISBN: 978-3-639-28744-8)

Book Chapters (5)

Burkhardt, H. E. and **T. G. Gregoire**. 1994. Forest Biometrics. IN: *Handbook of Statistics Volume 12: Environmental Statistics* (G. P. Patil, and C. R. Rao, eds.) North Holland/Elsevier Science Publishers, New York. pp. 377-407.

Valentine, H. T., **T. G. Gregoire**, H. E. Burkhardt, and D. Y. Hollinger. 1998. Projections of Growth of Loblolly Pine Stands under Elevated Temperatures and Carbon Dioxide. IN: *The Productivity and Sustainability of Southern Forest Ecosystems in a Changing Environment* (R. A. Mickler and S. Fox, eds.) Springer-Verlag, New York. pp. 341-352.

Hasenauer, H. R. A. Monserud, and **T. G. Gregoire**. 2000. The simultaneous nature of tree growth models. IN: *Quantifying Spatial Uncertainty in Natural Resource*. (H. T. Mowrer and R. G. Congalton, eds.) Ann Arbor Press. pp. 171- 181.

Valentine, H. T., Gove, J. H., Ducey, M. J., Gregoire, T. G. and Williams, M. S. (2008) Estimating the Carbon in Coarse Woody Debris with Perpendicular Distance Sampling. IN: *Field Measurements for Forest Carbon Monitoring: A Landscape-scale Approach* (C. M. Hoover, ed.), Springer.

Brewer, K. R. W. and **T. G. Gregoire**. 2009. Introduction to survey sampling. IN: *Handbook of Statistics – v29A. Sample Surveys: Design, Methods and Applications*. (D. Pfeiffermann and C. R. Rao, eds.) Elsevier B. V. pp. 9-37.

Reviews (1)

T. G. Gregoire. 1996. Review of *Circular Statistics*, by N. I. Fisher, Cambridge University Press. *Forest Science* 42:515-516.

Refereed Journal Articles (154)

Barrett, J. P. and T. G. Gregoire. 1982. Breaking the Language Barrier. *Journal of Forestry* 80(1) 13 & 29.

Invited Presentations (86)

"Importance sampling in forest inventory," presented at the joint Inventory, Remote Sensing, and Biometrics Technical Session of the Society of American Foresters annual convention, Birmingham, Alabama, 5-8 October 1985.

"Applications of probability sampling in forestry," presented at Seminar Series, Department of Statistics, Virginia Polytechnic Institute and State University, April 28, 1988.

"Importance sampling and related variance reduction techniques," presented at Recent Developments in Forest Sampling and Modeling short course, Virginia Polytechnic Institute and State University, 9-11 August 1988.

"Importance sampling" workshop conducted at the State-of-the-Art Methodology of Forest Inventory symposium, Syracuse, New York, 30 July - 5 August, 1989.

"Roots of Forest Inventory in North America" presented at the Inventory (A1 Working Group) Technical Session of the Society of American Foresters annual convention, Richmond, Virginia, 25-28 October 1992.

"Sampling Methods Applied to Individual Trees", presented to the Research Branch, British Columbia Ministry of Forests, Victoria, B.C., Canada, 17 February 1995.

"Nonlinear mixed-effects modelling of tree volume," presented at Seminar Series, Department of Statistics, Virginia Polytechnic Institute and State University, November 16, 1995.

"Population-averaged and Subject-specific Approaches for Correlated Categorical Data", presented at the Joint Statistical Meetings, 14 August 1995, Orlando, FL.

"Nonlinear Mixed-effects Modeling of Cumulative Bole Volume with Spatially Correlated Within-tree Data", presented at spring meeting of the Eastern North American Region of the International Biometric Society, 18 March 1996, Richmond, VA.

"Survey Integration" invited Discussant, at the conference on Environmental Monitoring Surveys Over Time, sponsored by the National Research Center for Statistics and the Environment, 20-22 April 1998, Seattle, WA.

"Statistical properties of a prediction of bole volume from an integrated taper equation", presented by invitation to the Department of Statistics, Yale University, 25 January 1999.

"Statistical features of wheat scab sampling protocols: random volumes and inhomogeneous point processes", presented by invitation at spring meeting of the Eastern North American Region of the International Biometric Society, 29 March 1999, Atlanta, GA.

“Statistical properties of a prediction of bole volume from an integrated taper equation”, presented by invitation to the College of Agriculture and Natural Resources Biometry Group, Michigan State University, 22 April 1999.

“Improved estimation following Poisson sampling: a forestry perspective”, presented at the Ninth Lukacs Symposium, Frontiers of Environmental and Ecological Statistics for the 21st Century, 23-25 April 1999, Bowling Green State University, Ohio.

“Statistical properties of a prediction of bole volume from an integrated taper equation”, Statistical Society of Canada, 6-9 June 1999, University of Regina, Regina, Saskatchewan.

“Prediction of bole biomass from an integrated model of tree taper”, International Statistical Institute, 10-18 August 1999, Helsinki, Finland.

“3P/Poisson/PRN sampling”, Northeast Mensurationists Organization, 25-26 August 1999, Harvard Forest, Petersham, Massachusetts.

“The development of statistical sampling methods for forest inventory”, presented by invitation to the

- Department of Statistics, University of Connecticut and the Connecticut Chapter of the American Statistical Association, 29 September 1999.
- University Statistics Program, University of Massachusetts, 6 December 1999
- Syracuse (NY) Chapter of the American Statistical Association, 7 March 2000.
- Department of Statistics, Iowa State University, 18 November 2002.

“Estimators for use with Poisson sampling and related selection procedures”, presented at the International Conference on Establishment Surveys – II, Buffalo, N.Y., 17-21 June 2000.

“Comparing Poisson, collocated, and pps systematic sampling and the consequences of random sample size”, presented by invitation to the Department of Forest Resource Management and Geomatics, Swedish University of Agricultural Sciences, Umeå, Sweden, 22 September 2000.

“Estimating forest volume and stand characteristics with airborne lasers”, presented by invitation to the School of Agriculture and Land Resources Management, University of Alaska Fairbanks, 12 October 2000.

“Biometry in the 21st century: whither statistical inference”, Keynote address to the international conference on Forest Biometry, Modelling and Information Science, International Union of Forest Research Organizations, S4.11, Greenwich, U.K, 25 June 2001.

“Sampling Strategies for Forest Inventories”, presented by invitation at the Sixth International Meeting on Quantitative Methods for Applied Sciences: Statistical Methods and Techniques for Analyzing Spatial and Temporal-Spatial Data, University of Siena, Italy, 19-20 September 2002.

Sukhatme Lecture: “The development of statistical sampling methods for forest inventory”,

presented by invitation to the Department of Statistics and Statistical Laboratory, Iowa State University, 18 November 2002.

“Design-based versus model-based inference: instilling an appreciation for the difference”, a roundtable discussion at the spring meeting of the Eastern North American Region of the International Biometric Society, 29 March 2004, Pittsburgh, PA.

“Statistics for Research in the Polar and Boreal Regions of the Globe”, a roundtable discussion at the Joint Statistics Meeting, 8 August 2005, Minneapolis, MN.

“Conditioning Inference on Line Orientation in Line Intersect Sampling”, with Affleck and Valentine, presented by invitation at the Forest Inventory and Planning in Nordic Countries meeting, 6-8 September 2004, Sjøusjun, Norway; published as NIJOS-report 09/05 by Norwegian Institute of Land Inventory (K. Hobbelstad, ed.; ISBN 82-74654-351-8), pp. 121-129.

“Sampling Strategies for Natural Resources and the Environment”, presented by invitation at the Northeast Mensurationists Organization, 2-3 November 2005, Freeport, Maine.

“The Delaware Estimator MSE Derivation”, presented by invitation at the Quebec Carbon LiDAR Program meeting, 24-26 May, 2006, Quebec, QC, Canada

“A Century of Evolution in Extensive Forest Inventories”, with Köhl and Mandallaz, presented by invitation at the XXIII International Biometric Conference, 16 – 21 July 2006, Montréal, Quebec, Canada.

“Climate Change Investigations”, a roundtable discussion at the spring meeting of the Eastern North American Region of the International Biometric Society, 12 March 2007, Atlanta, GA

Invited Discussant, Fields Institute Summer Workshop on Environmetrics, University of Waterloo, July 17-19, 2007

Invited Discussant, Joint Statistical Meetings, Salt Lake City, 29 July – 2 August, 2007. Design- and Model-based Sampling and Inference.

“Applications of Statistics: Two Recent Projects”, presented by invitation at The Energy and Resource Institute, New Delhi, India, 25 October 2007.

“Statistical Issues in Biomass Modelling and Estimation”, presented by invitation at TERI University, New Delhi, India, 26 October 2007.

“Estimating Aboveground Biomass with Profiling Laser Altimetry”, presented by invitation at the Indian Institute of Forest Management, Bhopal, India, 27 October 2007.

“Preliminary Results from a Designed Experiment on the Alaskan Tundra”, with Bader and

Guimond, presented to the environmental statistics faculty, Michigan State University, 13 March 2008.

“Mean Square Error of Aboveground Biomass Estimated with Profiling Laser Altimetry”, presented by invitation of the Environmental Science and Policy Program, Michigan State University, 13 March 2008.

“Climate Change Investigations”, a roundtable discussion at the spring meeting of the Eastern North American Region of the International Biometric Society, 24 March 2008, Arlington, VA.

“Reflections on the Process of Designing a National Forest Inventory for Bhutan”, presented by invitation of the National Forest Inventory and Land Use Data Consultation Workshop, Thimphu, Bhutan, 21 January 2009.

“A combined design and model-based derivation of the MSE of estimated aboveground biomass from profiling airborne laser system”, presented by invitation at spring meeting of the Eastern North American Region of the International Biometric Society, 16 March 2009, San Antonio, Texas.

“Unequal probability sampling designs for live standing trees and dead fallen trees”, presented by invitation at The Department of Statistics Colloquium Series, University of Virginia, 3 April 2009.

“Sampling with lasers – from Delaware, USA to Hedmark, Norway”, in collaboration with E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson, presented by invitation at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009, Quebec City, Canada.

“Conditional variance of the regression estimator of aboveground biomass in domains (cover classes) following two stage sampling using laser metrics as auxiliary information”, in collaboration with E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson, presented by invitation at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009, Quebec City, Canada.

“Model-based estimation of biomass in a LiDAR sample survey in the county of Hedmark, Norway”, in collaboration with S. Helm, E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson, presented by invitation at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009, Quebec City, Canada

“Estimating volume, biomass, and carbon in Hedmark County, Norway using a profiling LiDAR”, in collaboration with E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson, presented by invitation at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009,

Quebec City, Canada

“Estimating biomass in Hedmark County, Norway using National Forest Inventory ground plots and airborne scanning LiDAR”, in collaboration with O. Bollandsås, H. Ørka, E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson, presented by invitation at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009, Quebec City, Canada

“Advances in forest and environmental surveys”, keynote address presented by invitation at the first Italian conference on Survey Methodology, organized by the Italian Statistical Society, 10-12 June 2009, Siena, Italy.

“Sampling with airborne lasers for regional forest inventory”, invited keynote address at Silvilaser 2009 conference, 14-16 October 2009, College Station, Texas, USA, in collaboration with E. Næsset, G. Ståhl, T. Gobakken, and R. Nelson.

“An introduction to ascertaining biomass with special reference to Bhutan”, a two-day workshop presented by invitation of the Forest Resources Development Division, Ministry of Agriculture and Forestry, Thimphu, Bhutan, 18-19 December 2009.

“The design of the National Forest Inventory of Bhutan”, presented by invitation of the United Nations FAO at the Workshop on Forest Inventory and Monitoring in Montane Ecosystems, 11 June 2010, Thimphu, Bhutan.

“Applied Statistics for Foresters”, principal instructor for five-day NOVA shortcourse for Nordic doctoral students, 16-20 August 2010, Umeå, Sweden.

“Using airborne lasers to estimate forest biomass”, presented by invitation of the Indira Gandhi National Forest Academy, Forest Research Institute, DehraDun, India, 13 September 2010.

“Sampling and modeling aspects of individual tree biomass equations”, presented by invitation of the Indira Gandhi National Forest Academy, Forest Research Institute, DehraDun, India, 14 September 2010.

“Preliminary design aspects of Bhutan’s NFI”, presented by invitation of the Indira Gandhi National Forest Academy, Forest Research Institute, DehraDun, India, 15 September 2010.

“National Forest Inventory Design for Bhutan”, presented by invitation at the Eastern Himalayan Regional Workshop: Forests and Climate Change, International Centre for Integrated Mountain Development, Kathmandu, Nepal, 24-28 January 2011.

“Beyond Assistance: The Role of Models in Forest Inventory”, presented by invitation at the workshop Statistical Issues in Forest Management, Université Laval, Québec, 2-4 May 2011.

“Design and Estimation of a LiDAR Sample of Hedmark County, Norway”, keynote address via

video link at V Encuentro de Biometría Forestal Chilena, 14 October 2011, Temuco, Chile.

“Special session on Biodiversity” panel discussion at the 12th Delhi Sustainable Development Summit, 2-4 February 2012, New Delhi, India.

“Design and Estimation of a LiDAR Sample of Hedmark County, Norway”, presented by invitation at TERI University, New Delhi, India, 8 August 2012.

“Design and Estimation of a LiDAR Sample of Hedmark County, Norway”, presented by invitation at Yale University, 16 January 2013.

“Design and Estimation of a LiDAR Sample of Hedmark County, Norway”, presented by invitation at Xishuangbanna Tropical Botanical Garden, China, 12 March 2013.

“Statistical Issues with LiDAR Applications to Support Large-scale Forest Inventory”, presented by invitation at the workshop on LiDAR Applications in Forest Inventory and Related Statistical Issues, DIBAF, Università della Tuscia, Viterbo, Italy, 8 May 2013.

http://forestlabdotnet.files.wordpress.com/2013/05/lidar_viterbo_may2013.pdf

“Effect of shade, fire and weed control on establishment of *Pericopsis elata* Harms regeneration” by P. Umunay, J-R Makana, and T. G. Gregoire. Poster presentation at SAF National Convention, Charleston, SC, USA, October 2013.

“A stochastic algorithm for reconstructing tree height growth with stem analysis data. Proceedings of Forest Biomass Conference. Poznań University of Life Sciences, 7-9 October 2013, with C. Salas.

“Design and Estimation of a LiDAR Sample of Hedmark County, Norway”, presented by invitation at University of Göttingen, Germany, 10 March 2014.

“Methodological progress in LiDAR biomass estimation”, keynote address at IUFRO conference on Forest Cover Change, Freising, Germany, 2-4 April 2014.

“Modelling climate change effects on site productivity of *Nothofagus dombeyi* forests in southern Chile”, XIII Latin American Congress of probability and Mathematical Statistics, Universidad Nacional de Colombia, Cartagena de Indias, Colombia, with C. Salas 22 September 2014.

“Recent Applications and Developments of Randomized Branch Sampling” by T. G. Gregoire, D. L. R. Affleck, and H. T. Valentine, presented by invitation at ForestSAT 2014, Riva del Garda (TN) Italy, 4-7 November 2014.

“Basic Sampling with Extensions”, principal instructor for one week of a ten-day shortcourse for Finnish doctoral students, 25-29 May 2015, University of Helsinki, Helsinki, Finland.

“Differences between design-based and model-based inference.” Short course, University of Helsinki, 24 September 2015.

“Three-phase model-based estimation of growing stock volume utilizing Landsat, LiDAR and field data in large-scale surveys”, presented by invitation at Silvilaser 2015 conference, 28-30 September 2015, Le Grande Motte, France, in collaboration with S. Saarela, A. Grafström, S. Holm, and G. Ståhl,

Invited Discussant at The Inaugural Ross-Royall Symposium: From Individuals to Populations. The Johns Hopkins University, 26 February 2016.

“Randomized Branch Sampling of Forest Trees”, presented by invitation at Brazilian Region, of The International Biometric Society annual meeting, 24-28 July 2017, in collaboration with David Affleck and Peter Umunay.

“Reflections on the Contributions of Bertil Matérn”, presented by invitation at the IUFRO 125th Anniversary Congress, 18-22 September 2017, Freiburg, Germany. In collaboration with P. J. Diggle

“Statistical Issues with Modeling Individual tree Aboveground Biomass”, presented by invitation at the IUFRO 125th Anniversary Congress, 18-22 September 2017, Freiburg, Germany. In collaboration with D. L. R. Affleck.

“The design of the National Forest Inventory for the Royal Government of Bhutan”, presented by invitation to the Institute of Advanced Biology, Karlsruhe Institute of Technology, Karlsruhe, Germany, 20 September 2017.

“The design of the National Forest Inventory for the Royal Government of Bhutan”, presented by invitation to the 10th World Dendrochronology Conference, Thimphu, Bhutan, 11 June 2018.

“The design of the National Forest Inventory for the Royal Government of Bhutan”, presented by invitation at Beijing Forestry University, 29 July 2018

“The design of the National Forest Inventory for the Royal Government of Bhutan”, presented by invitation at the Department of Statistics, University of Georgia (USA), 27 September 2018.

“Generalized hierarchical model-based estimation for aboveground biomass assessment using GEDI and Landsat data”, Invited presentation at ForestSAT 2018, 1-5 October 2018, College Park, MD, with S. Saarela et al.

“Sampling and modeling aboveground biomass of indigenous tree species in Bhutan”, presented by invitation at the annual meeting of the Northeastern Mensurationists Organization, 17-18 October 2019, Yale-Myers Forest, Yale University, Eastford, CT.

Volunteered presentations (Proceedings were not published)

“Weighted regression when the weights are unknown - is it worthwhile?”, presented at the annual meeting of the Association of Southern University Biometricians, Charleston, S.C., 7-9 September 1988.

"A unified framework for forestry sampling," presented at the annual meeting of the Association of Southern University Biometricians, Charleston, S.C., 7-9 September 1988.

"Tree utilization models with spatially correlated errors and random effects", presented at the 1994 Joint Statistical Meetings of the American Statistical Association, International Biometric Society, Institute of Mathematical Statistics, Toronto, Canada, 13-18 August 1994.

"Design-based and model-based inference in survey sampling: appreciating the difference", presented to the School of Forestry and Environmental Studies, Yale University, March 1997.

"Prediction variance from an integrated regression equation", presented at spring meeting of the Eastern North American Region of the International Biometric Society, 31 March 1998, Pittsburgh, PA.

“Line intersect sampling: unbiased estimators for ell-shaped intersect lines”, presented at the annual meeting of the Ecological Society of America, 4-9 August 2002, Tucson, AR.

“Why was Fisher so mad with Neyman?”, Western Mensurationists Meeting, 1-3 July 2003, Victoria, British Columbia.

“Dimensionality reduction in the Environmental Sustainability Index using Principal Component Analysis”, presented at the 28th Annual Conference of the German Society for Classification, 9-11 March 2004, Dortmund University, Germany.

“A sampling protocol for design-unbiased estimation in line intersect sampling using segmented transects”, with Affleck and Valentine, Joint Statistical Meetings, 7-12 August 2004, Toronto, Canada.

“Preliminary Results from a Designed Experiment on the Alaskan Tundra”, with Bader and Guimond, presented at the 2005 annual meeting of the Western North American Region of the International Biometric Society, 21 –24 June 2005, Fairbanks, AK.

“Boundary overlap corrections for segmented line transects.” with Affleck and Valentine, Western Mensurationists Meeting, 4 – 7 July 2005, Hilo, Hawaii.

“Regional forest inventory using an airborne profiling LiDAR” with Nelson, Næsset, Gobakken, Ståhl, SilviLaser 2006 meeting, 7-10 November 2006, Matsuyama, Japan.

“Statistical analysis of ratio estimators with measurement error in the auxiliary variate: a forestry application” with Salas, presented at international conference Linking Forest Inventory and Optimization, 1-4 April 2008, Freising, Germany.

“Some effects of measurement error in the auxiliary variate on the design-based properties of the ratio estimator of the population total” with Salas, presented at the SamNordisk Skogsforskning Meeting on Forest Inventory, Management Planning and Modelling, 19-22 August 2008, Egilsstadir, Iceland.

“The great systematic sampling controversy of 2008” with Affleck and Valentine, Northeastern Mensurationists Organization annual meeting, 8-9 October 2008.

“Comparing spatial statistical models for predicting tree diameter from airborne laser scanning data” with C. Salas, L. Ene, N Næsset, and Gobakken. New England Statistics Symposium, Storrs, CT, USA, 25 April 2009.

“Comparing spatial statistical models for predicting tree diameter from airborne laser scanning data”, in collaboration with C. Salas, Ene, N Næsset, and Gobakken, presented at the conference Extending Forest Inventory and Monitoring Over Space and Time, organized by the International Union of Forest Research Organizations, 19-22 May 2009, Quebec City, Canada.

“Modelling site productivity in *Northofagus* forests in Chile: a preliminary analysis”, in collaboration with C. Salas, A. Ortega, P. Donoso and P. Núñez, presented at the World Forestry Congress, Buenos Aires, Argentina, 18-23 October 2009.

“Modeling site productivity of *Northofagus* forests in Chile: a preliminary analysis” IUFRO Conference on Mixed and Pure Forests in a Changing World, October 2010, Villa Real, Portugal

“Biases in an Airborne Profiling Survey of Hedmark County, Norway.” Silvilaser 2011, Oct. 16-20, 2011, University of Tasmania, Hobart, Australia, with Ross Nelson, Erik Næsset, Terje Gobakken, Liviu Ene, Göran Ståhl.

“A stochastic algorithm for reconstructing tree height growth with stem analysis data” Forest Biomass Conference, 7-9 October 2013, Poznan, Poland. With Christian Salas.

“Modeling climate change effects on site productivity of *Northofagus dombeyi* forests in southern Chile” BIOSTAT2014, 11-14 June 2014, Dubrovnik, Croatia. With Christian Salas.

“Allometric model for estimating above ground biomass of *Gilbertodendron dewevrie* forest in Democratic Republic of Congo. International conference on Wood science underpinning tropical forest ecology and management. 26-29 May 2015. Tervuren, Belgium. With Peter Umunay.

“Modelling height-diameter curves for prediction” 19-23 May 2019 at *A century of national forest inventories – informing past, present, and future decisions*. Oslo, Norway.

“Leaf water capacity discriminates phenological response in savanna cowpea”, 11-16 August 2019, Ecological Society of America annual meeting, Louisville, KY.

OTHER PROFESSIONAL ACTIVITIES

- Peer review of the Quality Assurance Program Plan for the Forest Response Program, U. S. Environmental Protection Agency, 1986.
- Member of the workshop panel that drafted and reviewed the U. S. Environmental Protection Agency Methods Manual for Field Measurements (Site Classification), March 1986
- Representative for the International Union of Forestry Research Organizations on the organizing committee for "Spatial accuracy of natural resources data bases" international symposium, 16-20 May 1994, Williamsburg, VA. Co-sponsored by the International Union of Forest Research Organizations and the American Society of Photogrammetry and Remote Sensing.
- Program chair for the Inventory (A1) Working Group technical session at the annual convention of the Society of American Foresters, 7-12 November 1993, Indianapolis, Indiana.
- Organizing committee for international conference on "Modelling Stand Response to Silvicultural Practices", Blacksburg, Virginia, September 27 - October 1, 1993. Sponsored by the International Union of Forestry Research Organizations.
- Organizer, technical session of invited speakers for the Biometrics (A3) Working Group at the 1992 annual convention of the Society of American Foresters, Richmond, VA.
- Organizer, "Recent Developments in Forest Sampling and Modeling" short course, Virginia Polytechnic Institute and State University, 9-11 August 1988.
- Moderator, "Successive Inventory Systems" session, Growth and Yield Estimates from Successive Forest Inventories conference, June, 1993, Copenhagen, Denmark. Sponsored by the International Union of Forestry Research Organizations, S4.02.03 .
- Moderator, "Forest Inventory and Sampling Designs" session, State of the Art Methodology of Forest Inventory symposium, August, 1989. Sponsored by the Society of American Foresters, Syracuse.
- Moderator, "Biomathematical/Process Models" session, Forest Growth Modeling and Prediction conference, August, 1987, Minneapolis, Minnesota. Sponsored by the International Union of Forestry Research Organizations.
- Moderator of "Biomass Regressions and Measurement Error" session of the national workshop

Tree Biomass Regression Functions and their Contribution to Forest Inventory Estimates, May, 1986, Syracuse, New York. Sponsored by U. S. Forest Service.

- Organizer and chair of "Sampling Environmental and Biological Resources" session of invited papers for the International Biometrics Society, Eastern North American Region spring meeting, 25-29 March 1995, Birmingham, AL.
- Organizer and chair of "Sampling Issues in Regional Monitoring Programs" session of invited papers for the Joint Statistical Meetings, 13-17 August 1995, Orlando, FL.
- Organizer and chair of "Recent Developments in Spatial Data Modeling" session of invited papers for the International Biometrics Society, Eastern North American Region spring meeting, 25-29 March 1995, Birmingham, AL.
- Organizer and chair of "Longitudinal and Spatially Correlated Data: Methods, Applications, and Future Directions" meeting, cosponsored by the International Biometric Society, American Statistical Society, and The International Environmetric Society, 15-18 October 1996, Nantucket, Massachusetts.
- Organizer and chair of "Modeling Longitudinal and Spatially Correlated Data." session of invited papers at the Joint Statistical Meetings cosponsored by the American Statistical Association, the International Biometric Society, Institute of Mathematical Statistics, and Statistical Society of Canada, 10-14 August 1997, Anaheim, California.
- External examiner of dossier for faculty promotion and/or tenure for Oregon State University (1992, 2008, 2020); Texas A&M University (1994); State University at New York, Syracuse (1995); American University (1997); Kansas State University (1999); North Carolina State University (1999); University of Colorado Health Sciences Center (1999); University of Iowa (2000); University of Wisconsin (2000); Louisiana State University (2000); Clemson University (2001); Oklahoma State University (2001); University of Nebraska (2001); University of Maryland (2001); The Pennsylvania State University (2001); University of Georgia (2001, 2017); University of New Mexico (2001); Virginia Tech (2001, 2005, 2015); Iowa State University (2002); University of New Hampshire (1998, 2002, 2007, 2010); University of South Carolina (2003); Iowa State University (2003); State University at New York, Syracuse (2003); University of Michigan (2003); University of Idaho (2003), University of Florida (2004, 2010), Simon Fraser University (2004); The Pennsylvania State University (2004), Medical College of South Carolina (2005), University of British Columbia (2005), Claremont McKenna College (2005), University of California, Riverside (2005), University of Texas, San Antonio (2005), University of Helsinki (2006), University of Georgia (2006, 2017), University of Alaska (2006), University of Joensuu (2006), University of California at Berkeley (2008); University of Melbourne (2009, 2010); University of Alabama (2013, 2016); Seoul National University (2015).
- External examiner for promotion in rank for U. S. Forest Service (1997, 1998, 2007, 2011,

2012); NASA (2001).

- External examiner of doctoral theses for Yale University (1987); University of Kalyani (India; 1995); University of Tasmania (2000); Swedish University of Agricultural Sciences (2000), University of Joensuu (2001, 2004); Indian Statistical Institute, Calcutta (2002), McGill University (2008); National College of Business Administration & Economic, Lahore, PK (2012); University of Eastern Finland (2013); University of Helsinki (2015), Yale University (2015, 2016); University of São Paulo (2017).
- Moderator of "Nonlinear modeling" session of contributed papers for the International Biometrics Society, Eastern North American Region spring meeting, 29 March - 1 April 1998, Pittsburgh, PA.
- Member of the program committee for the Ninth International Conference on Quantitative Methods for Environmental Sciences (TIES98), 3-6 July 1998, Gold Coast, Queensland, Australia.
- Moderator of "Modeling and Estimating Uncertainty" session of contributed papers for the International Conference on the Inventory and Monitoring of Forested Ecosystems, "Integrated Tools for Natural Resources Inventories in the 21st Century." 16-20 August 1998, Boise, Idaho.
- Member of the Student Award Committee for The International Biometric Society, Eastern North American Region, 1998, 2004.
- Organizer and chair of "Agricultural Applications of Spatial Statistics and Modeling" session of invited papers for the International Biometrics Society, Eastern North American Region spring meeting, 28-31 March 1999, Atlanta, Georgia.
- Moderator of "Statistical Ecology" session of Frontiers of Environmental and Ecological Statistics for the 21st Century, Ninth Lukacs Symposium, 23-25 April 1999, Bowling Green State University, Bowling Green, Ohio.
- Moderator of "Statistical Inference and Related Topics" session of the XXVII Annual Meeting of the Statistical Society of Canada, 6-9 June 1999, University of Regina, Regina, Saskatchewan.
- Member of the organizing and program committee for the Workshop on Hierarchical Modeling in Environmental Statistics, 14-16 May 2000, Ohio State University, Columbus, Ohio (sponsored jointly by the U. S. Environmental Protection Agency, the Statistics and the Environment Section of the American Statistical Association, and the Ohio State University).
- Organizer and chair of "Recent Developments in Sampling" session of invited papers for the International Biometrics Society, Eastern North American Region spring meeting, 19-22 March 2000, Chicago, IL.

- Moderator of "Spatial Analysis of Non-normal Data" session of invited papers for the International Biometrics Society, Eastern North American Region spring meeting, 25-28 March 2001, Charlotte, NC.
- Chair of the Distinguished Student Paper Award Committee for The International Biometric Society, Eastern North American Region, 2005.
- Member of the program committee for the Himalaya Studies Conference 2014, Yale University.
- U. S. Coordinator of Indo-US Workshop *Forests of the Western Himalaya: Conservation and Restoration of Ecosystem Services in a Time of Climate Change*. Funded by the India-United States Science and Technology Forum. 28-29 June 2014. 73 invited participants.

Organized and hosted the Northeastern Mensurationists Organization annual meeting in 2005, and 2019.

Books, manuscripts and grant proposals reviewed (400+)
