

# Knowledge and Leadership for a Sustainable Future

## FOUNDED: 1900

### DEAN

**Indy Burke**, Carl W. Knobloch, Jr. Dean

### FACULTY DEANS

**Mark S. Ashton**, Senior Associate Dean  
of The Forest School

**Brad Gentry**, Senior Associate Dean  
of Professional Practice

**Kenneth Gillingham**, Senior Associate  
Dean of Academic Affairs

**Peter Raymond**, Senior Associate Dean  
of Research and Director of Doctoral Studies

## DEGREES OFFERED

Master of Environmental Management (MEM)

Master of Environmental Science (MESc)

Master of Forestry (MF)

Master of Forest Science (MFS)

Doctor of Philosophy (PhD)

YSE also offers a range of joint degrees with other  
graduate and professional schools within Yale and  
with external partners.

# Yale SCHOOL OF THE ENVIRONMENT

---

## RESEARCH

YSE's faculty and students conduct innovative, solutions-focused research across Yale's New Haven campus and at field sites around the world, providing new insights and novel methods to address climate change, biodiversity loss, and today's other urgent environmental challenges.

<https://environment.yale.edu/research>

## GLOBAL IMPACT

From working at the federal level to develop a roadmap to better understand nature's contributions to the U.S. economy to collaborating with the World Trade Organization on a sustainability agenda for the global trading system, YSE's research and leadership directly impacts environmental policy and practice around the world.

<https://environment.yale.edu/news>

## THE FOREST SCHOOL

The Forest School (TFS) within YSE educates scientists and practitioners to apply forest ecology and social dynamics in their work around the globe. It also serves as a hub for connecting forests and people across disciplines, cultivating collaborations, initiatives, and research that underscore the importance of forests within the broader environmental field.

<https://environment.yale.edu/forest-school>

## CENTERS, PROGRAMS, AND INITIATIVES

YSE's 25 centers, programs, and initiatives offer diverse research, fieldwork, training, and events in areas ranging from environmental justice to climate change communication to green chemistry and green engineering to the environmental impacts of global urbanization, among others.

## ONLINE CERTIFICATE PROGRAMS

**Clean and Equitable Energy  
Development Certificate Program**

<https://yse.to/CEEDonlinecertificate>

**Financing and Deploying Clean Energy  
Certificate Program**

<https://yse.to/FDCEonlinecertificate>

**Tropical Forest Landscapes:  
Conservation, Restoration & Sustainable Use**

<https://yse.to/TFLonlinecertificate>

**Urban Climate Leadership Certificate Program**

<https://yse.to/Urbancertificate>

## BEKENSTEIN CLIMATE LEADERS PROGRAM

This exciting, university-wide program aims to increase the number of YSE and Yale graduates working to address the climate crisis. Through a combination of scholarships, internship stipends, and post-graduate incentives, the Bekenstein Climate Leaders Program helps make it more affordable for emerging leaders to pursue high-impact careers in areas of high need, such as government and the nonprofit sector.

<https://yse.to/bekenstein>

## THREE CAIRNS CLIMATE PROGRAM FOR THE GLOBAL SOUTH

This transformative program expands access to advanced education and training for qualified students and professionals from the Global South who are committed to working to combat climate change in their home countries and regions.

## ENVIRONMENTAL FELLOWS PROGRAM

EFP is a career-defining 12-week summer fellowship program that connects master's degree and doctoral students from historically underrepresented groups to work opportunities in environmental nonprofits, grant makers, and government sectors.

<https://environmentalfellows.yale.edu>

## ALUMNI

There are more than 5,700 alumni in environmental leadership positions around the world.
