Beginning July 2015, Yale is transitioning to Workday as the campus-wide unified Human Resources and Payroll information system. Workday’s functionality will allow faculty and staff to view and manage information related to their benefits, pay, and personal information. These activities are currently completed in the Yale Portal under My Pay & Info and My Benefits, respectively. For example, you will use Workday to:

- Access and change your benefits
- Set up and manage direct deposit (including printing your payslips and W-2)
- Edit personal contact and emergency contact information

What does Workday mean for me?

In addition to using Workday to review and maintain your personal information and benefits, Workday will provide faculty and staff with:

- **Access**
  - Secure and easy to access to your own data, including pay statements, direct deposit information, and benefit choices
- **Fewer Forms**
  - Less paper and redundant data entry
- **Mobile**
  - Mobile access to manage your personal information, anytime, anywhere

Who do I contact for additional support?

The Employee Service Center will remain your primary resource for assistance when you need help making changes in Workday to your benefits, payroll and personal information.
